

Dear Members,

We are pleased to present you with a new publication – ***Guide for Developing an EMS Agency Safety Program.***

The guide provides a roadmap for EMS agencies to develop and implement a comprehensive workplace safety program, customizable to their agency type, size and needs.

The guide was produced by the **National EMS Safety Council**, a coalition of 12 national EMS and safety organizations that work together to ensure that patients receive emergency and mobile healthcare with the highest standards of safety, and promote a safe and healthy work environment for all emergency and mobile healthcare practitioners. NAEMT is a member organization of the Council.

[Download Guide](#)

Please share this guide with those in your agency responsible for safety. We encourage all EMS agencies to implement a comprehensive safety program to protect their patients and practitioners.

Sincerely,

Dennis Rowe, EMT-P  
President, NAEMT
